PROFILE

Product and applied-AI professional with close to four years across Big Four consulting and large-scale technology implementation in power distribution. MBA in Digital Enterprise from IIM Udaipur (top 5 percentile), engineering from NIT Silchar, and Certified Scrum Product Owner. Works in a product capacity on digital platforms (requirement discovery, PRDs, wireframes, sprint prioritisation) and applies data methods such as clustering, segmentation, forecasting and anomaly detection to business problems. Builds AI agents that automate document-heavy evaluation and application workflows.

CORE SKILLS

Product: requirement discovery · PRDs and user stories · wireframing · prioritisation · competitive teardowns · Agile / Kanban
AI & Analytics: AI agents · K-means clustering · regression · segmentation · forecasting · anomaly detection · KPI design
Data & BI: Python (pandas, NumPy) · SQL / MySQL · Power BI (DAX) · Advanced Excel
Consulting: digital platform assessment · process digitisation · benchmarking · stakeholder management · executive communication

PROFESSIONAL EXPERIENCE

Senior Associate | PwC India Jun 2026 – Present

- Worked in a product capacity on a digital platform serving a state health department: requirement discovery, PRDs, wireframes and sprint prioritisation with the development vendor.
- Defined product KPIs and built SQL and Power BI models tracking adoption, service coverage and feature usage; cleaned and reconciled multi-source datasets for management review.
- Benchmarked a state industrial corporation's digital investor platform against ten peer states, converting scored gaps into a prioritised improvement backlog.
- Applied statistical analysis to workforce data spanning 71 cadres and 68,403 positions, segmenting a 14,996-post vacancy gap by cadre, district and facility tier for capacity modelling.

Associate | Ernst & Young LLP Aug 2025 – Feb 2026

- Supported development of an internal CRM platform through requirement gathering, user stories and release coordination with the engineering team.
- Analysed LT/HT service-connection cycle-time and volume data end to end, quantifying bottlenecks and defining a redesigned digital workflow.
- Built cost benchmarks and scenario models for a 500 MW power procurement tender, testing outcomes across parameter ranges.

Assistant Manager (Grade A Officer) | Assam Power Distribution Company Ltd. Mar 2021 – Mar 2024

- Applied load-pattern analysis and anomaly detection to consumption data to flag high-risk segments, contributing to INR 2 Cr+ in revenue recovery.
- Drove metering and billing digitisation across a 20,000+ installation estate, defining requirements and tracking adoption and accuracy after rollout.
- Led SCADA and automation deployment across 500+ sites, coordinating vendors and internal stakeholders through implementation.

PROJECTS

- **AI Agents — Bid Evaluation & Job Search:** Built two Claude-based agents with structured context, task instructions and access to working folders and email; one evaluates bid documents against defined criteria, the other screens postings, tailors a CV truthfully and drafts applications for approval.
- **Supply Chain Optimisation — BigBasket (Nov 2024 – Feb 2025):** K-means clustering across demographic, geographic and economic variables to site dark stores, with Google Maps API coverage mapping; modelled a 15% reduction in last-mile delivery cost.
- **Executive MIS Dashboard — Digitisation Programme:** Designed a Power BI executive reporting layer over a star-schema model, turning programme delivery data into a single-screen management view.
- **Product Portfolio:** Teardowns and PRDs including Netflix onboarding, Zepto scheduled delivery, CustoMate (AI for customs) and EmoSphere — on the portfolio site above.

EDUCATION

Master of Business Administration | Indian Institute of Management, Udaipur Apr 2024 – Apr 2025
Specialisation in Digital Enterprise · GPA 3.58/4.00 · Top 5 percentile of cohort

B.Tech, Electrical Engineering | National Institute of Technology, Silchar Jul 2016 – Jun 2020
GPA 7.86/10.00 · GATE 98th percentile (AIR 525)

CERTIFICATIONS & ADDITIONAL

CFA Level I (cleared) · Certified Scrum Product Owner, Scrum Alliance · Certified in Cybersecurity (CC), ISC2 · Languages: English, Hindi, Bengali, Assamese
